

SA Spray Primer

SA Spray Primer is a spray applied polymeric priming solution consisting of a synthetic rubber base with hydrocarbon solvents.

INTENDED USE

SA Spray Primer is designed to improve the bond adhesion of self-adhesive and heat-activated bituminous membranes to a variety of substrates.

Products should be installed in accordance with the manufacturer's installation guidelines.

STORAGE

SA Spray Primer is supplied in pressurised containers. Product must be stored under cover on a flat, level, and clean surface away from sources of heat and ignition, including pilot lights and sparks. Do not expose to temperatures exceeding 50 °C/122 °F.

INSTALLATION SUMMARY

Apply SA Spray Primer with the spray gun at 90° to the surface and apply a uniform generous coat of primer, ensuring 80-100% coverage.

Move the gun in parallel to the surface and pay attention to the edges. Do not allow the primer to puddle.

When applying to porous surfaces it may be necessary to apply a second coat.

Ensure the substrate is structurally sound, free of surface laitance, oils, grease, dirt, moss, lichen, and loose material. The surface should be smooth and free from sharp projections and loose debris, and any material which would hinder adhesion.

The product is to be installed in accordance with manufacturer's instructions and current and relevant guidance documents.

PRODUCT DATA

Colour	Black
Coverage Rate ⁽¹⁾	300 m ²
Application Rate ⁽¹⁾	≈ 17 m ² per kg
Application Limits ⁽²⁾	+5°C to +30°C
Container Size	17kg

(1) Depending on substrate porosity
(2) Surfaces must be free of ice and water

PACKAGING

Description	Size	Product Code
SA Spray Primer	17kg	20000722

APPLICATION EQUIPMENT

Description	Size	Product Code
Braided Hose	3.6m	20000719
SA Spray Applicator Field Gun		20000723
SA Spray Applicator Detail Gun		20000742
Hose & Gun Cleaning Adaptor		20000721
Hose & Gun Cleaner	500ml	20000720

SAFETY, QUALITY & ENVIRONMENT

BMI Icopal products are manufactured under a Quality Management System approved to ISO 9001: 2015 and an Environmental Management System approved to ISO 14001: 2015, by TÜV NORD CERT GmbH.

Information regarding transportation, handling, storage and disposal can be found on the relevant Safety Data Sheet.
